No six shooters were used. Nobody had one with him.

The big event of the day, the steer buildogging contest, was won by Bill Rickett, a grandfather and the man who invented this sort of contest. It took Bill twenty-six seconds to ride after a flying steer, launch himself from his saddle onto the head of the steer, throw him and hold him down. Fred Wilson did it in twenty-nine seconds, and several other contestants did it in less than forty seconds.

Nineteen other events requiring displays of steel muscles and nerves were put on, to the applause of the crowd. There were the cowgirls and cowboys races, cowboys night shirt race, the wild horse race, in which twenty unbroken horses were saddled and ridden. To-day's show begins at 2 o'clock, and part of the proceeds will be for the Actors' Fund.

The reliability and operating efficiency of Studebaker cars is so well established that, in the eyes of many, the maintenance of the DEFINITE Studebaker Service System seems unnecessary.

But it must be remembered that Studebaker's interest in its product does not end with its sale. As a matter of fact Studebaker considers that its real responsibility only begins at that point, and has therefore organized the famous Studebaker DEFINITE Service to the end that every owner shall get 100% operating efficiency and pleasure from his car.
